REPUBLIC OF SOUTH AFRICA

Sub-Directorate: Quality Assurance NAMB

Accreditation and Certification

Accreditation

Before NAMB establishment:

- **Setas will conduct audit and accredit.**
- **One TTC will have multiple accreditation on same trade.**
- **We achieved varying standards.**
- **Not good for the country.**

Accreditation Achievement

- **Managed to Establish NADQAC**
- **All setas sit around the table**
- **Use same documentation across all sectors**
- **NAMB process administration process for the recommendation of all centers to be accredited by the QCTO**
- **No more sector based accreditation**
- **All TTC`s and SDP`s are now accredited by one Organization: QCTO**

CERTIFICATION

- **History:**

- Each Seta used to issue Trade Certificate within each sector**
- That gave the industry the power to discriminate against the people**
- We also had Section 28 and 13 Trade certificate**

- **Current**

- One common Trade certificate issued by QCTO**
- Issued in terms of one section: 26 D of SDA**
- No more discrimination of Sect. 28 or 13**

IMPROVEMENT ON CERTIFICATION

- **We now Scanning the documents to QCTO**
- **We have started with a small seta**
- **We will gradually move to bigger setas**

FUTURE:

- Will use trade test system to submit certification recommendation to QCTO.**

CHALLENGES:

- Seta Backlogs.**
